## SCHOOL ZONE FLASHING BEACON SET

By alerting drivers to situations that require special caution or speed reduction, flashing warning beacons improve the ability of students to safely walk or bike to school.

Studies have shown that school zone speed limit signs when used in conjunction with flashing warning beacons are effective in reducing school zone speeds.

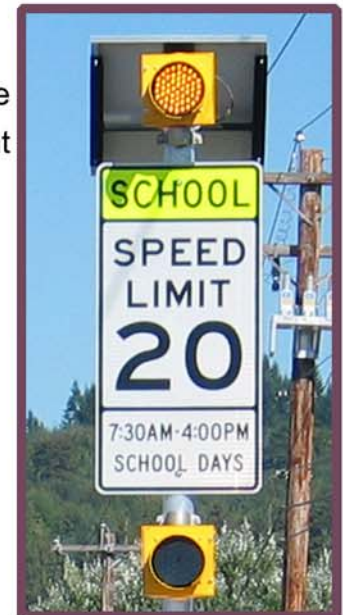

Flashing Warning Beacons can be used in conjunction with "School Speed Limit 20 When Flashing" signs. The flashing lights draw attention to the school signs and conditions.

Drivers can then respond appropriately by slowing down or being prepared to yield to pedestrians.

Programable Two Circuit  
Timer Switch

Two flasher display options available  
Side-by-side and Top and bottom mount

**Alert & Notify!** Pair the flashing beacons with a Radar Driver Feedback Sign for an even more effective solution for traffic calming in school zones. We offer the **School Zone Safety System** to meet your needs.

# Flashing Beacon Options

## **Solar Powered Flashing Beacon System includes:**
